

**Council of School Supervisors & Administrators, New York City**

New York State Federation of School Administrators  
Local 1 American Federation of School Administrators, AFL-CIO

September 24, 2007

Dear Representative:

The *Council of School Supervisors and Administrators (CSA)* strongly supports the Maloney-Nadler-Fossella 9/11 Health and Compensation Act.

We believe every person exposed to toxins present at the World Trade Center site has a right to be medically monitored, and all who are sick as a result have a right to appropriate medical care.

This bill would establish a long-term and permanent solution to addressing the health needs of World Trade Center rescue, recovery and clean-up workers, and residents suffering from 9/11 related health conditions. This bill would also reopen the 9/11 Victim Compensation Fund to provide compensation for economic damages and loss for individuals who did not file before or became ill after the original December 22, 2003 deadline.

Sincerely,

Ernest A. Logan  
President
